Summary

With 10 years professional experience in the arts world I gained invaluable experience in working with teams as well as developing a strong set of transferable skills. As a recent graduate with a Diploma in Software Development I am able to combine my interpersonal skills with a good working knowledge of current modern technologies. I am currently looking for a technical role where I can contribute to and work with a strong team. I am extremely passionate about professional development and have a strong desire to learn new technologies and skills.

Education

2019-2019   Code Institute/Edinburgh Napier University: Diploma in Full Stack Software Development

2009-2013   Dublin City University: Ba Hons Music Performance

Technical Skill Set

Languages: HTML, CSS, JavaScript, Python

Databases: MongoDB, MySQL, PostgreSQL

Frameworks: JQuery, D3.js, DC.js, Flask, Django, Jasmine.js

DevOps: Git, GitHub, Travis CI, AWS, Heroku, Agile

Employment History

Self Employed Opera Singer:

2011 - Present

I have worked as a self employed artist with some of the largest opera companies in Ireland and the UK as well as performances in Europe and Asia.

I developed a strong set of skills in Team-work, Project management, Public Speaking, PR and administration. I was responsible for the day to day running of my career including tax returns, contracts, invoices and dealing with company directors and management.

Multiple award and bursary winner in recognition of work and achievements in my opera career including the PWC Young Emerging Artist Award and the "Liam Healy Bursary" from Wexford Festival Opera.

Companies who have contracted me include:

- Irish National Opera
- Glyndebourne Opera Festival
- Lyric Opera Productions
- Holland Park Opera
- Opera Theatre Company
- Hong Kong City Hall
- Wexford Festival Opera
- Northern Ireland Opera
- Royal Albert Hall
- RTE

Skills and Competences

- Strong ability to communicate in challenging situations.

- Interpersonal skills.

- Problem solving skills.

- Ability to work independently on tasks including planning and goal setting.

- Decision making, multitasking and implementing strategy.

- Ability to work and plan in group situations and meet deadlines.
